

Effective Biomedical Treatments: Autism Spectrum, AD(H)D & Related Disorders

May 2, 2010 - Burnaby, B.C.

THE GREAT PLAINS LABORATORY, Inc.

11813 West 77th Street, Lenexa, KS 66214, USA

Burnaby Seminar

May 2, 2010

Venue

Executive Hotel & Conference Centre
4201 Lougheed Hwy
Burnaby, B.C. V5C 3Y6
www.executivehotels.net/burnaby

Seminar Overview

This seminar provides an opportunity for families to become more aware of effective biomedical treatments for Autism, Asperger's, Pervasive Developmental Disorders, AD(H)D, neuro-developmental learning and behavioural issues. These medically-treatable issues include intestinal pathogens, inborn errors of metabolism, food allergies, nutritional deficiencies, environmental chemicals and heavy metals, gastrointestinal issues, and food "chemical" sensitivities. Learn about this and more on May 2, 2010 at the Executive Hotel and Conference Centre in Burnaby, BC.

Speaker Biographies

Anita Bratt, N.D., practices in North Vancouver, B.C. After completing a Bachelor of Science degree in Biology in 1994, Dr. Bratt attended the National College of Naturopathic Medicine in Oregon and Bastyr University in Washington, before completing her Doctorate of Naturopathic Medicine in 2005 at the Boucher Institute of Naturopathic Medicine in New Westminster, B.C. Dr. Bratt is the mother of three children. After her oldest son was diagnosed with autism, she developed a specific interest in the research and treatment of autism spectrum disorders. She uses a biomedical and Defeat Autism Now approach in treating ASD, along with naturopathic therapies. She is a member of the British Columbia Naturopathic Association and the Canadian Association of Naturopathic Doctors, and is board-certified in Chelation Therapy.

William Shaw, Ph.D., is board certified in the fields of clinical chemistry and toxicology by the American Board of Clinical Chemistry. Before he founded The Great Plains Laboratory, Inc., Dr. Shaw worked for the Centers for Disease Control and Prevention (CDC), Children's Mercy Hospital, University of Missouri at Kansas City School of Medicine, and Smith Kline Laboratories. He is the author of *Biological Treatments for Autism and PDD*, originally published in 1998 and *Autism: Beyond the Basics*, published in 2009. He is also a frequent speaker at conferences worldwide. He is the stepfather of a child with autism and has helped thousands of patients and medical practitioners to successfully improve the lives of people with autism, AD(H)D, Alzheimer's disease, bipolar disorder, chronic fatigue, depression, fibromyalgia, immune deficiencies, multiple sclerosis, OCD, Parkinson's disease, seizure disorders, tic disorders, Tourette syndrome, and other serious conditions.

Schedule

8:30 - 10:00	William Shaw, Ph.D. Introduction to Biological Treatments for Autism and Related Disorders
10:00 - 10:30	Break
10:30 - 12:00	Anita Bratt, N.D. Heavy Metals in Autism: Toxicity and Effective Treatment
12:00 - 1:00	Lunch (Bring your own lunch)
1:00 - 2:30	William Shaw, Ph.D. Toxic Chemicals and Mitochondrial Dysfunction in Autism and Related Disorders
2:30 - 3:00	Break
3:00 - 4:30	Anita Bratt, N.D. Top Ten List of Biomedical Interventions for Autism and Related Disorders
4:30 - 5:00	Q & A, Closing Comments

Post-Seminar Outreach Clinic

Burnaby, British Columbia - May 29 & 30, 2010

Outreach Clinic Physician: Anita Bratt, N.D.

Executive Hotel & Conference Centre
4201 Lougheed Hwy
Burnaby, BC V5C 3Y6

What is an Outreach Clinic?

Outreach Clinics offer families a full service opportunity to begin biomedical interventions by providing an on-site physician, an experienced pediatric phlebotomist, and comprehensive biological testing panels at discounted prices. In accordance with the "comprehensive approach," a special panel of tests has been specifically designed to detect the most common imbalances associated with nutritional deficiencies, immune issues, digestive disorders, metabolic imbalances, allergies, infectious conditions, and issues associated with oxidative stress. Performing multiple tests increases the chances of identifying all areas likely to contribute to symptoms at hand and knowing the full scope of the patient's metabolic state will assist the physician to better design a treatment plan that is specific to the patient's needs. Restoring balance to all functions of the body produces a synergy that cannot be achieved by addressing abnormalities individually. The physician will address any concerns about the relevance of specific tests.

Outreach Clinic Information

Dr. Bratt's initial consultation fee will be charged in addition to any test panels or tests selected. An experienced pediatric phlebotomist will perform all necessary blood and hair collections. Urine and stool specimens will need to be collected at home and shipped to The Great Plains Laboratory, Inc. The test results and recommended treatment program will be discussed at a follow-up appointment approximately 4 - 6 weeks after test specimens have been sent in. Please note separate fees apply for each follow-up appointment. After reviewing test results, Dr. Bratt will develop a treatment plan for each patient individually.

Discounted Test Panels

Discounted panels are only offered at Outreach Clinics. There are two specially priced panels being offered: the **Comprehensive Autism Panel** and the **Basic Autism Panel**. Other panels and individual tests are also available. Visit the Outreach Clinic page at www.greatplainslaboratory.com for tests included in the panels and pricing.

More Information

For additional information about tests and pricing, to schedule an appointment, or to download a full copy of the Outreach Clinic brochure, visit www.greatplainslaboratory.com.

For questions, please contact the **Outreach Team** at **859-261-4503** or e-mail outreach@GPL4U.com.

Last Day to Register: May 27, 2010

Burnaby Seminar

May 2, 2010

Registration Info

Last day for online registration: April 16, 2009

Register Online: www.greatplainslaboratory.com

By Mail: The Great Plains Laboratory, Inc., Attn: Chasity Robinson
11813 W. 77th St. Lenexa, KS 66214, USA, 913-341-8949

By Fax: 913-341-6207, Attn: Chasity Robinson

Seminar Pricing

Early Bird Registration Fee (ends 4/1/10)\$45 USD

On-Site Registration Fee (after 4/1/10 & at the door)\$75 USD

Please register early as seating is limited.
